

RCSC Individual Membership

Africa ~ Asia ~ Oceania ~ Europe

~ South America ~ North, Central America & Caribbean

One of the key activities of FICS is the provision of sports chiropractic services at international events. This enables the organization to achieve our vision of providing access to sports chiropractic for all athletes. It is our aim to ensure that all athletes can perform at their optimum levels drug free.

To help with our vision FICS continually seeks to develop and attract new members whether this is through our partner National Chiropractic Sporting Councils (NCSC), Regional Councils (RCSC) National Chiropractic Associations (Associated Members), chiropractic teaching institutions or commercial organisations across the globe. FICS has a significant international membership base that includes over 31 current NCSC's along with a number of educational institutions, affiliated chiropractic bodies and commercial organisations down from 6 regions in the world. FICS is the leading global organisation providing equitable access to sports chiropractic care, education, mentoring and research to all athletes and sports chiropractors regionally, nationally and internationally.

Your FICS membership guarantees you the same benefits of a NCSC member:

- Direct access to FICS membership recognised with all benefits awarded to that category.
- Member rates at FICS seminars, events, advertising, and marketing opportunities.
- Representation on the FICS members directory on the FICS website
- Use of the FICS name and logo on your organisation's website and materials, identifying your status as an Member.
- Opportunities to collaborate on joint initiatives and shared resources with FICS.
- An active role in shaping and promoting sports chiropractic globally.
- Participation in building a strong, cohesive, and unified voice for sports chiropractors worldwide.
- Access to a global network of sports chiropractors committed to advancing the profession.
- Access to participants in International Games, scholarships, and other member benefits as they become available from time to time.

RCSC Membership - Process

When you apply for FICS membership, our team will first check if there is an NCSC in your country. If an NCSC exists, you cannot join an RCSC, and you will instead be directed to either join through one of your country's Associated Member Groups or apply as an Individual Member with FICS.

The annual membership fee is 30 CHF for NCSC members, 60 CHF for RCSC members, and 125 CHF for direct individual members with FICS. As a point of difference, NCSC and RCSC members who meet eligibility criteria receive priority access to scholarships and selection for international events, over individual members. An RCSC brings together countries within a region where an NCSC cannot be formed due to governance, political, professional, or financial barriers.

This membership is open to **doctors holding a chiropractors degree** from, Council on Chiropractic Education accredited institutions per regional area (ECCE, CCEA, CCE Canada, CCE USA), Institutions accredited by a professional statutory regulatory body (PSRB) or Institutions with government accreditation via the Ministry of Health and/or Education.

Members in these regions receive support from FICS to strengthen their standing nationally and to leverage international networks and resources.
