VOLUNTEERISM

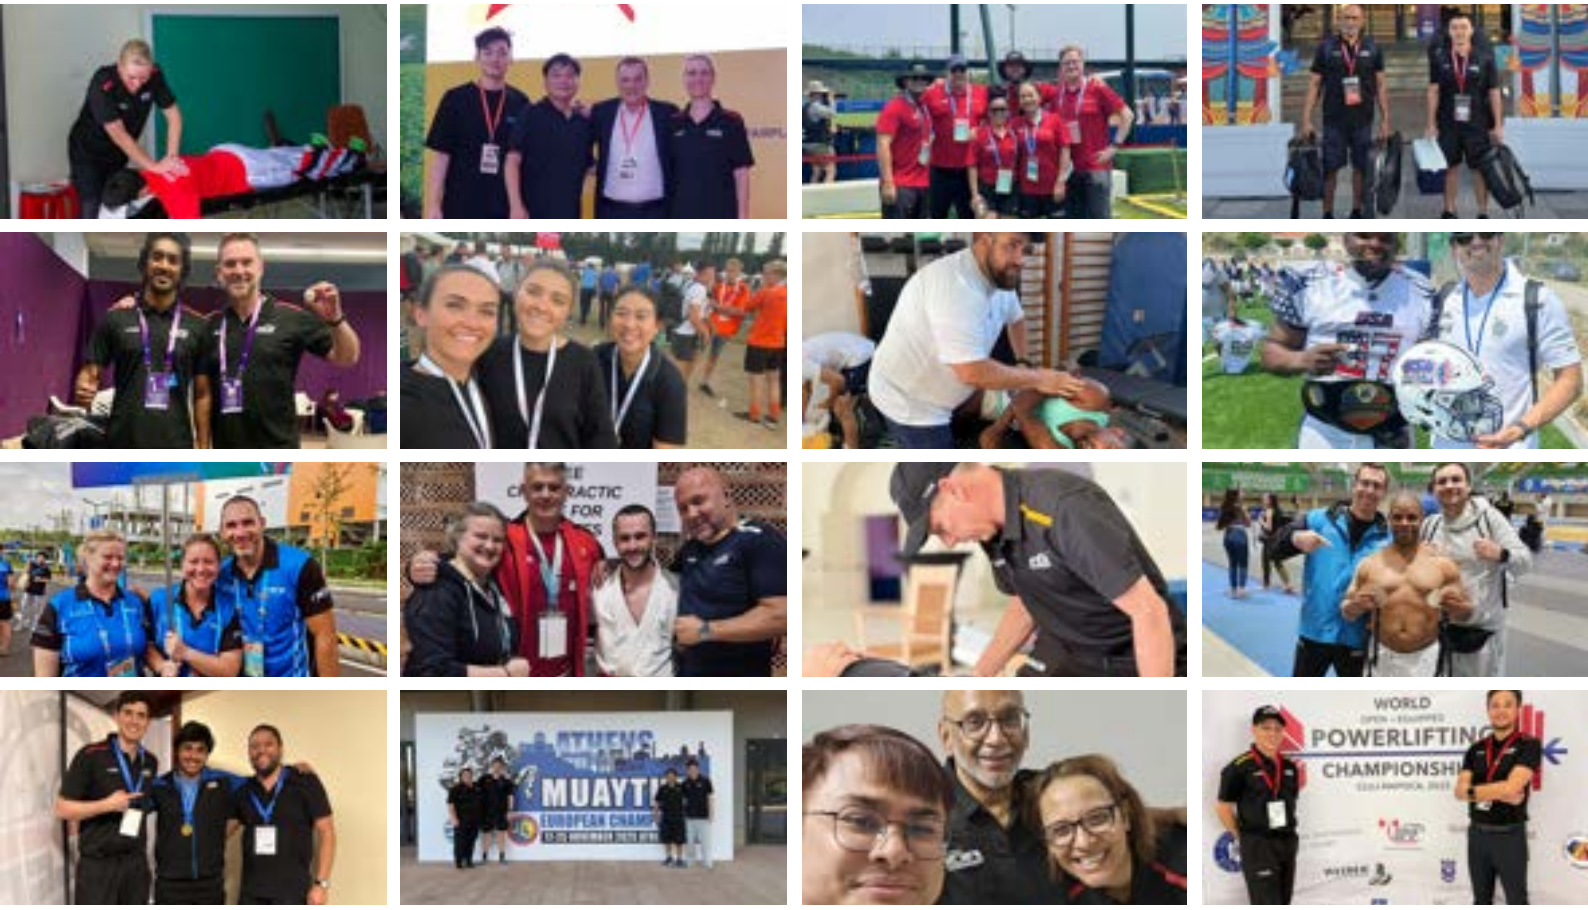

By: Dr Simon Lawson

Volunteerism: will it remain the Cornerstone of a growing, dynamic organisation etched from humble and noble values?

It could be argued that the definition of Volunteerism is simple “the principle of donating time and energy for the benefit of other people in the community as a social responsibility rather than for any financial reward.” Simply put: a FICS member!

As we step into 2026, we are privileged and honored to be part of a truly unique global organization like FICS. In our profession, we enjoy the distinct advantage of being our own CEOs—our own bosses. Each day, we make meaningful decisions that profoundly impact the lives of our patients and athletes. But what motivates a group of highly effective, successful professionals, united by a shared passion for philanthropy, to come together and freely give their time and expertise? It’s the mission of advancing Sports Chiropractic worldwide, helping athletes not only achieve their best performances but unlock their full potential.

FICS - CREATING CONNECTIONS TO A GLOBAL NETWORK OF EXPERIENCES AND FRIENDSHIPS
